# Report of Schools.

## THE SUPERINTENDENT AND SUPERINTENDING SCHOOL COMMITTEE'S REPORT AND RECOMMENDATIONS

Citizens of Norridgewock:

The following is the report of the schools for the year ending February 15, 1920:

The past school year has gone fairly smoothly, altho in several individual cases the school year has been broken by sickness and shortage of teachers. If higher wages are not paid the spring term will find more of the schools without a teacher. Teachers everywhere are receiving more wages, therefore we must pay higher wages; if not, we will have inexperienced and incompetent teachers.

We had to raise the salaries of the village and high school teachers. We fortunately received a special Secondary Equalization fund which covers the raise given the high school teachers. We did not receive the Common School equalization fund this year, due to the fact that we did not raise an average amount as compared with that raised in other towns of the state.

The Course of Study compiled by the State Department, has been placed in the hands of each teacher, and has proved a great help; especially to teachers either beginning or with little experience. As time goes on the use of this course of study will place all the schools on an equal basis.

### VILLAGE SCHOOLS

There has been no change in the teaching staff of the village schools. The attendance has been above the normal. The fifth and sixth grade rooms have been uncomfortably crowded and as the attendance for the coming year promises to be large seats must be procured.

### HIGH SCHOOL

The high school enrollment is still large. The freshman

class occupies what was formerly the third and fourth grade room.

Mr. Fowler came to us this fall and is doing excellent work. This spring a course in physiology will be given, the first time for several years.

### TEXT BOOKS

Our text books are now in good shape; however several changes must be made, especially the geographies which must be brought up-to-date, covering the changes made in the late war. As required by the State Department, arrangement must be made for physical instruction, in all the schools. Also, a history covering Beginnings of American and European history must be put in the sixth or seventh grade.

### REPAIRS

Most of the schoolhouses are in fair condition. Several need to be painted as soon as cost resumes a fairly normal condition. Up-to-date out-houses should be built.
